Digital and Accessible Technology Training

Digital and Technology Training Package

Our bespoke training is designed to accommodate all visual impairment needs to help people adjust and find ways to use the Accessibility Features on the devices they already own. We can accommodate 'Tech groups' to allow for 'peer to peer' support as well as targeted sessions to cover specified areas of interest for the group.

Some areas we can cover/ not restricted to:
- Activation and optimisation of the accessibility features on devices
  - Video Calling/ Skype/ Facetime
  - Audio features
- App usage and experience-based recommendations for downloads
- Advice and/or signposting with product purchase
- Tech-Talks - a presentation on specific area of focus requested by customer.
  (i.e. Magnification, Products, etc.)

The Approach:

We work alongside the organisation/ individual to co-design the delivery of Digital and Technology training to maximise the impact through suitable mechanisms of learning. We pride ourselves on our holistic approach to working alongside our members and stakeholders to ensure the content is attainable and useful.

We tend to invite groups into an open forum for people of all technological capabilities to pool together information, skills and ideas.

Training Overview

Digital and Technology Training is a key skill for people living with sight loss to assist with their independence and helps to facilitate social interaction. It is a vital tool in supporting people living with a visual impairment and our training can provide you with the confidence and insight to do this.

4Sight Vision Support offers training sessions to individuals, employers and organisations, enabling them to have a clearer understanding of the needs of people living with slight loss, by raising awareness of the difficulties encountered and identifying the most appropriate support available.

Training is delivered by our professional team, all of whom have experience and knowledge of eye conditions and sight loss. Sessions can be run on your premises or at one of our 4Sight Vision Support Centres. We have a diverse range of products at our centres that can be used to demonstrate functions, and our team are happy to offer support and give advice of products to purchase.

Training Costs and more information

This Training Package would be facilitated by a technical trainer/member of the 4Sight Vision Support Team and a volunteer (may vary depending on group size).

Sessions can take place in your venue or in one of our 4Sight Vision Support Centres in Bognor Regis, Shoreham-by-Sea or Midhurst.

- Maximum participants - 20 per session
- The session will last for approximately 3 hours.

The cost of this package is £150

To discuss your requirements and to enable us to offer you a quote, Please: Call us on 01243 828 555 or Email us at enquiries@4sight.org.uk

NB: This is our recommended training package, however if you would prefer a shorter session then we can discuss providing a tailor-made session/Tech-Talk for you based on the above content.

Please note: We offer a 10% discount to charities and not-for-profit organisations. VAT charged where applicable. Travel expenses will be charged at 45p per mile.
